

## L100 - LABELLING HEAD

With the L100 your pre-printed labels are applied fast, accurate and reliable on each and every product – within food, pharmaceutical, wood, paper or any other demanding industry.

The L100 wipe on labelling head is designed to be easy to operate – and run continuously in multiple shifts – for many, many years. With the high capacity stepper motor – labels can be applied at speeds up to 66 metres / minute !

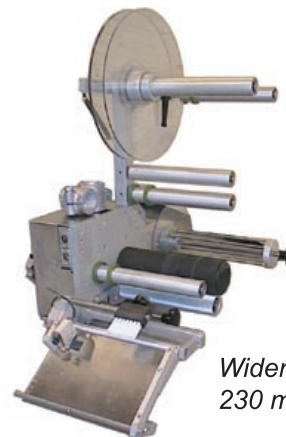

With the possibility to make pre-settings for up to 99 products – it is very fast to switch between completely different label formats or products. Easy and reliable are the key words !

L100 on adjustable stand SM-300. Box and tray labelling on moving object.

Labelling within wood industry - a rough environment that puts high demands on the equipment.

Wider version for up to 230 mm labels (L200)
