MECTEC

TWQ100
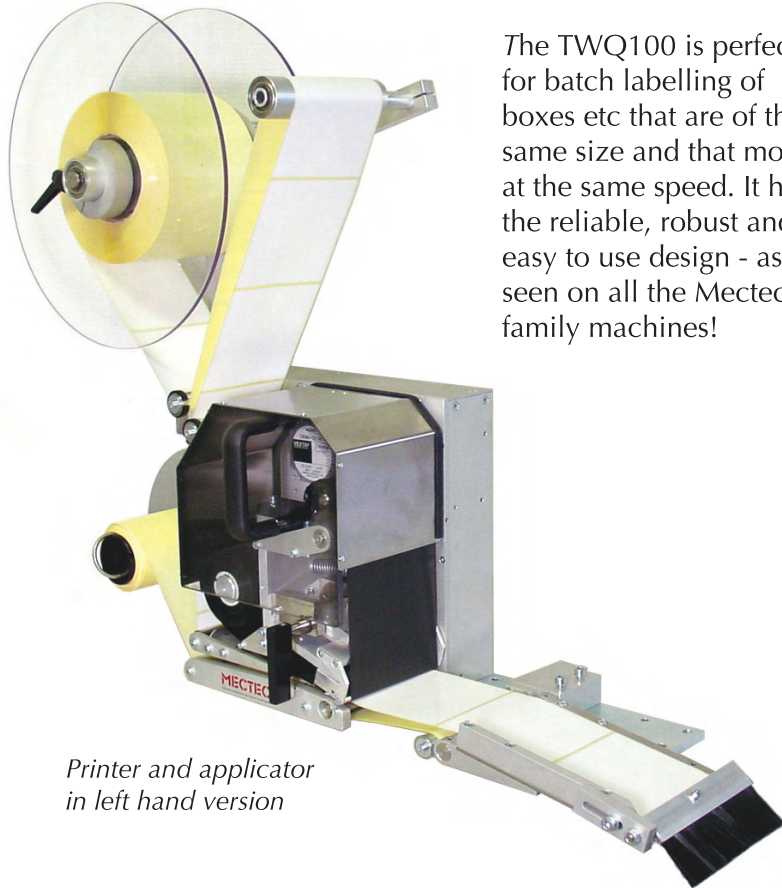

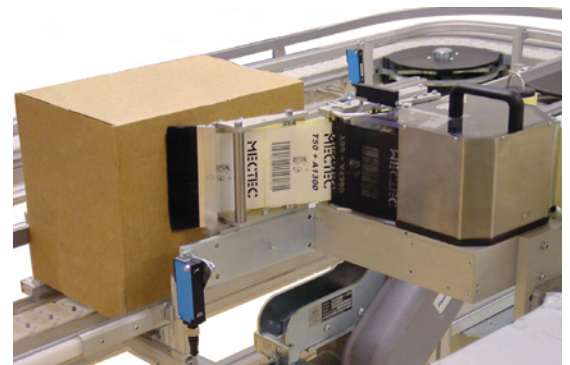

TWQ100 - WIPE ON APPLICATOR

TWQ100 is an easy functioning and fast Print&Apply system. It's in fact a long dipensing beak mounted on the printer. The main advantage lays in its simplicity - no unnecessary moving parts when you don't need them!

The TWQ100 is perfect for batch labelling of boxes etc that are of the same size and that moves at the same speed. It has the reliable, robust and easy to use design - as seen on all the Mectec family machines!

Box and tray labelling. Applies on moving products!

Handheld terminal TG300 (optional)

Printer and applicator in left hand version

Printer Control Unit PCU III
(Please note: ACC not included)

TECHNICAL DATA
