Roll Diameter up to 200 mm
Core Holder from 20 mm on

Model SED 01

Label Width up to 150 mm
Roll Diameter up to 300 mm
Core Holder from 32 mm on

The new "easy" dispenser will assure you the maximum flexibility and the best efficiency/price ratio making it easy for you to apply labels in your semi-automatic manual labeling operations.

Two buttons will allow you to choose between a manual detachment of the label, that means to push the button when you want the label to be detached, or an automatic detachment, that means to take the labels automatically in succession. Through a knob you can set the label's length to detache, from 5 mm up to 80 mm.

All the dispensers come with a top to write on the label before detachment and are supplied with a power supply of 220/20 Vac with a protection fuse.
