Automatic Label or Meters/Feet Counter Series

Label Counter

Meters/Feet Counter

Automatic Label or Meters/Feet Counter Series allows to count the labels on a roll, to rewind and unwind the labels on one machine, to rewind the labels onto different core sizes, to rewind small rolls of labels from a larger one and also to rewind small rolls with a preset number or meters/feet of labels from a larger roll. This last feature is possible thanks to the setting of the preset labels' number or meters/feet through the electronic counter. Once the preset number or meters/feet of labels will be reached, the label counter will stop by uttering an acoustic signal. Both turrets of the label counter are motorized and it is possible to adjust the speed of rotation on the rewinder only while the unwinder has an automatic self-adjustment speed.

Automatic Label or Meters/Feet Counter Series can handle labels up to 120 mm wide and it can rewind and unwind rolls of labels with diameter up to 250 mm. It has a speed of 120 rpm and it is possible to choose between two different types of core holder: the adjustable core holder from 46 mm up to 118 mm or the core holder of 1 inch. It is also possible to add a second optional support for heavy rolls. Automatic Label or Meters/Feet Counter Series is available in many different versions and every model is marked by its own code. Through the configuration table (see below), it is possible to select the version better fitting your needs and to obtain the code of the product to order. The Automatic Label or Meters/Feet Counter turns in one direction only, from left to right. From the unwinder to the rewinder.

Configuration table

Rewinder and Unwinder					
Module	Roll Diameter	Speed	Label Width	Core Holder	Support Optional
CE Label Counter	1 250 mm	1 120 rpm	1 120 mm	1 40 - 118 mm	S0 Without
CM Meters / Feet Counter				2* 1 Inch	S1 250 mm

Example of configuration

Label Counter	Code rewinder				Code unwinder					
CE	1	1	1	1	S0	1	1	1	2	S0

OBTAINED CODE CE 111 - 1 - S0 - 111 - 2 - S0

* the 1 inch core holder is available with the 120 mm label width only and both the outer disc and support are not available.
